AFTER-SCHOOL CODING CLUB

Year 1 & 2
Friday 3.30 pm - 4.30 pm
17 April - 10 July 2026

Students embark on an exciting journey to discover the fundamentals of programming through interactive Scratch projects. They dive into key concepts such as algorithms, sequences, and loops in a fun and accessible way, building a strong foundation for future coding adventures.

This club is perfect for both new coders and students with past experience. Through hands-on projects, students unleash their creativity to design their own unique stories and games, bringing their ideas to life.
