## AFTER-SCHOOL CODING CLUB

Year 5 & 6

Wednesday 3.30 pm - 4.30 pm

15 April - 8 July 2026

Students will hone their programming skills on the dynamic p5.js platform using JavaScript. Working closely with their instructors, participants embark on an engaging journey of creating images, animations, and interactive games. Each project builds on the skills learned in previous sessions, helping students develop independence and confidence in coding.

By the end of the term, participants are able to create captivating illustrations and explore the exciting world of interactive programs. This immersive experience challenges students while nurturing creativity, problem-solving, and a deeper understanding of programming.
