maths week 3

Information on this week's maths

This week's activities are from the website –

<https://whiterosemaths.com/homelearning/year-4/>

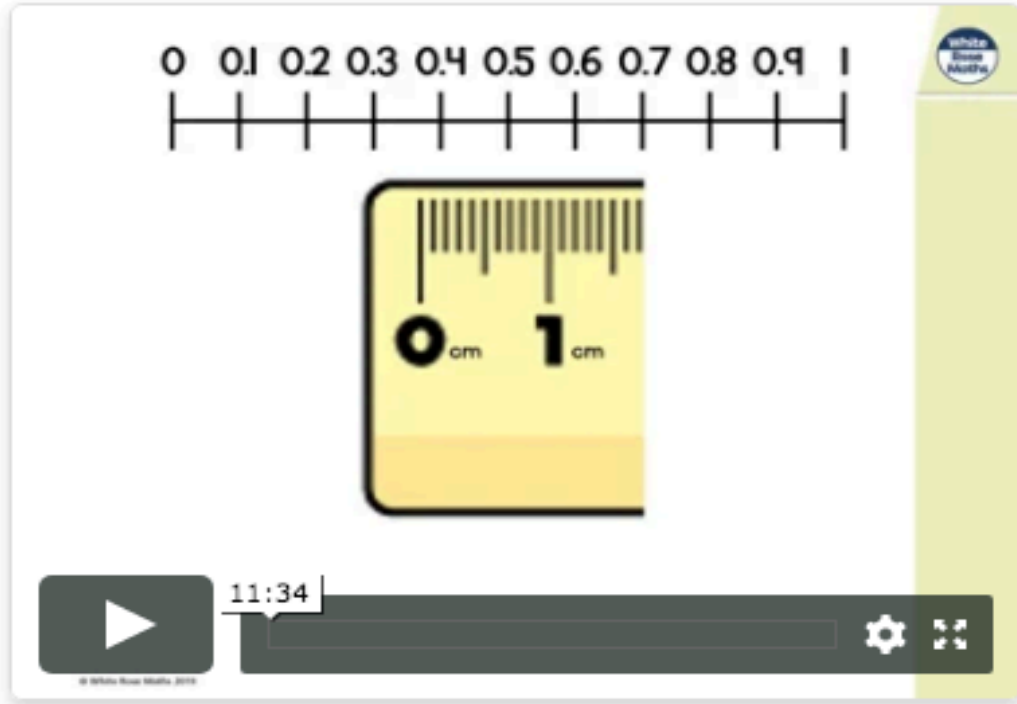

For each day I will specify which lesson to complete – along with a picture of that day's video for clarity. The activity to be completed are next to the video.

Complete as many of the activities as you can – the questions get harder as you progress through the sheet, so do not worry about finishing everything. On each day the suggested activities for practice, stretch and challenge are displayed.

If the lesson is too challenging then do not worry – you're welcome to browse the website to find another activity or spend time practicing your times tables

DAY 2 – Week 1 lesson 5 – Dividing 1 digit by 10

Lesson 5 - Dividing 1 digit by 10

The video player interface shows a green header with the title 'Dividing 1 digit by 10' and a 'White Rose Maths' logo. Below the header is a green circle containing the number '100'. The main content area features a 5x2 grid of empty boxes. At the bottom left, there is a play button icon and a progress bar showing '00:00'. A 'White Rose Maths' logo is also visible in the bottom left corner of the video frame.
